UK,

To whom it may concern.

We, Tracy & Keith, would like to say that with the expert help that we received from David daCosta at Ace Migration we now have been granted our Visas to immigrate to Australia. We believe that this would not have been made possible without his help.

We applied for the Skill assessment first without any help and advice and were turned down. This devastated us and so we turned to David for his advice. David then took all the worry away from us, got hold of our file and began to gather necessary information from us to support our application. Within 5 weeks of resubmitting our application we had our skill assessment passed.

We then asked David if he could help us with the main application form. Nothing was ever too much trouble, if we had list of questions they got answered and we always had piece of mind. It was quite a stressful time with all the forms and questions but David made the whole experience a lot less stressful for us.

Now just over one year on after submitting the main application form, our dream has finally come true. We are soon to be on our way and in the process we have found new friends in David and his lovely wife Jen.

A world of thanks David and we hope to see you in person some day.

Regards

Tracy & Keith
